CRON

- Go to module configuration page. There is a CRON section copy with fully generated paths to PHP script that will handle import and stock/price updated of prices. You can set both to be executed once a day with one hour apart from them.

CRON

Add these following php scripts to CRON:

- `php /var/www/vhosts/justpresta.com/zoodrop-v8.justpresta.com/modules/jpzoodrop/controllers/front/cron-import-cli.php`
- `php /var/www/vhosts/justpresta.com/zoodrop-v8.justpresta.com/modules/jpzoodrop/controllers/front/cron-update-cli.php`
